

Gas Transceiver for Hazardous Environments

Flammable, toxic and oxygen gas detector for industrial applications

OGTR Overview

Easy to use

- User friendly intuitive multi-color LCD data display
- Fully configurable via an android mobile application
- Optional remote sensor available when using Modbus digital sensor

Cost effective

- Minimal training required
- Non intrusive, one-person operation
- Sensor configuration and calibration done via a mobile application

Flexible input / output options

- 2 Possible connected sensors (electrochemical, infrared , or catalytic bead)
- Fully programmable alarm relays (dry contacts) 10A-250 VAC to 3 individually configurable alarm set-points for each plugged sensor (optional)
- 1 Analog output (0-20mA / 4-20mA /0-24mA/ 0-5V /0-10V) for mapping
- Modbus RTU over RS485 for remote settings, diagnostics, and configuration
- Visual indication over an RGB LED status
- Audible alert using 58dB buzzer

OGTR Detector is a complete standalone gas detection system designed to detect a wide range of toxic and flammable gases in potentially hazardous environments.

Wireless configurability and monitoring makes OGTR a non intrusive, easy to use solution that is ideal for various gas detection applications.

Typical applications

- Oil & Gas industries
- Water / wastewater treatment plants
- Pulp & paper mills
- Manufacturing facilities
- Chemical plants

OGTR Overview

OGTR Transceiver supports three types of inputs :

- **Digital input** : used with Electrochemical (O₂ ,CO₂,CO, H₂S, NO₂,CH₂O,CL₂,NO,CO₂); Catalytic (C₄H₁₀ , H₂,CH₄,C₃H₈) and Infrared (Refrigerant) sensor/Transmitter technologies.
- **Analog input** : supports Electrochemical (O₂ ,CO₂,CO, H₂S, NO₂,CH₂O,CL₂,NO,CO₂) and Infrared(Refrigerant) sensor/transmitter technologies.
- **Dual input** : supports both digital and analog inputs.

Technical Specifications

Electrical

POWER SUPPLY

| | |
|-------------------------|-------------------------------------|
| Power Supply | 18V-36V MAX (+24VDC Nominal) |
| Total Power Consumption | 2W MAX (When 2 sensors are plugged) |
| Inrush Current | 300mA MAX |

AVAILABLE SENSOR TECHNOLOGIES

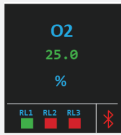

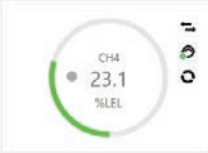

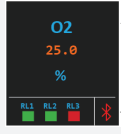

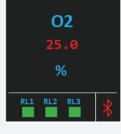

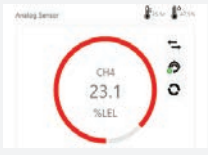

| | |
|----------|---|
| OGS-A420 | Analog 4-20 mA- Combustible 0 – 100%LEL |
| OGS-DCOM | Digital Modbus RTU- Combustible 0 – 100%LEL |
| OGS-EC3 | Digital Electrochemical 0 – 100PPM |
| OGS-NDX | Digital NDIR 0 – 10000PPM |

Environmental

| | |
|-----------------------|---------------|
| Operating Temperature | -40°C to 80°C |
| Operating Humidity | 0% to 90% |

OGTR Overview

OGTR displays data using the built in LED screen or via the OGTR mobile app:

| OGTR STATUS | Built In Display | Mobile App |
|---------------|---|---|
| NORMAL |  <ul style="list-style-type: none">Gas level indication :greenRelay status indication |  |
| ALARM |  <ul style="list-style-type: none">Gas level indicatio:orangeRelay status indication |  |
| ALERT |  <ul style="list-style-type: none">Gas level indicatio:redRelay status indication |  |

Check operation manual for more details about OGTR mobile app

OGTR Mobile app

OGTR mobile application is an android interactive HMI that enables users to pair the OGTR with their mobile phone. Users can perform many tasks related to system configuration, calibration, diagnostics, and maintenance.

Mobile app features

- Ping/ silence and find the transceiver.
- Auto-detect sensor information and on-site calibration.
- Real-time monitoring of sensor(s).
- Relay output configuration and mapping.
- Analog output configurations and mapping.
- Hardware diagnostic and maintenance.
- OTA firmware updating.

OGTR Application

OGTR is applicable to a variety of industries :

ENVIRONMENT

Chemical Plants

Oil and Gas

Power Stations

Boiler Rooms

Hospitals

Waste Water Treatment

Towers

Specific Area

- Raw material storage
- Process areas
- Laboratories
- Pump skids
- Compressor stations
- Loading/unloading areas
- Exploration drilling rigs
- Production platforms
- Onshore oil and gas terminals
- Refineries
- Around the boiler pipework and burners
- Turbines
- Coal silos and conveyor belt areas in older coal/oil fired stations
- Boiler and gas piping
- Incoming gas main
- Laboratories
- Refrigeration plants
- Boiler rooms
- Pumps
- Plant sumps
- Digesters
- H₂S scrubbers
- Boiler rooms
- Chillers

Gases Present

- General Hydrocarbons
- H₂S
- NH₃
- O₂
- General Hydrocarbons
- H₂S
- CO
- O₂
- Flammable
- CH₄
- H₂
- O₂
- General Hydrocarbons
- H₂S
- CO

- General Hydrocarbons
- H₂S
- O₂
- CO
- General Hydrocarbons
- H₂S
- CO
- O₂
- General Hydrocarbons
- H₂S
- CO
- CO₂

OGTR Supported gas sensors

| Gas | | Snsor Technology | Range | Sensor Lifespan | Coverage Radius |
|--------------------------|--------------------------------|------------------|--------------|-----------------|-----------------|
| Combustible | | | | | |
| Butane | C ₄ H ₁₀ | Catalytic bead | 0-60% LEL | >3 years | 20 ft . (6m) |
| Hydrogen | H ₂ | Catalytic bead | 0-60% LEL | >3 years | 20 ft . (6m) |
| Methane | CH ₄ | Catalytic bead | 0-60% LEL | >3 years | 20 ft . (6m) |
| Propane | C ₃ H ₈ | Catalytic bead | 0-60% LEL | >3 years | 20 ft . (6m) |
| Oxygen Deficiency | | | | | |
| Oxygen | O ₂ | Electrochemical | 0-25% | >5 years | 20 ft . (6m) |
| Refrigerant | | | | | |
| Refrigerant | R-407C | Infrared | 0 - 1000 ppm | >10 years | 20 ft . (6m) |
| Refrigerant | R-134A | Infrared | 0 - 1000 ppm | >10 years | 20 ft . (6m) |
| Refrigerant | R-410A | Infrared | 0 - 1000 ppm | >10 years | 20 ft . (6m) |
| Refrigerant | R-404A | Infrared | 0 - 1000 ppm | >10 years | 20 ft . (6m) |
| Refrigerant | R-22 | Infrared | 0 - 1000 ppm | >10 years | 20 ft . (6m) |
| Toxic | | | | | |
| Ammonia | NH ₃ | Electrochemical | 0 - 1000 ppm | >2 years | 20 ft . (6m) |
| Carbon dioxide | CO ₂ | Infrared | 0 - 5000 ppm | >10 years | 50 ft . (6m) |
| Carbon monoxide | CO | Electrochemical | 0 - 200 ppm | >2 years | 50 ft . (6m) |
| Hydrogen sulfide | H ₂ S | Electrochemical | 0 - 20 ppm | >3 years | 20 ft . (6m) |
| Nitrogen dioxide | NO ₂ | Electrochemical | 0 - 10 ppm | >2 years | 50 ft . (6m) |
| Formaldehyde | CH ₂ O | Electrochemical | 0 - 10 ppm | >2 years | 20 ft . (6m) |
| Chlorine | CL ₂ | Electrochemical | 0 - 10 ppm | >2 years | 20 ft . (6m) |
| Nitric oxide | NO | Electrochemical | 0 - 250 ppm | >2 years | 20 ft . (6m) |
| Sulfur dioxide | SO ₂ | Electrochemical | 0 - 2000 ppm | >2 years | 20 ft . (6m) |

Other GASES and RANGES are available.
